

EVR ARCADE WAIVER

SAFETY INFORMATION –READ BEFORE YOUR VR GAMING EXPERIENCE

ENSURE YOUR HEALTH TO USE OUR DEVICES

Consult with your primary care Physician before using Virtual Reality Headsets if you have serious medical conditions that affect your ability to safely perform physical activities, psychiatric conditions such as anxiety disorders, PTSD, if you are pregnant or suffer from migraines. Do not use VR Headsets if you are feeling sick, fatigued, or under the influence of alcohol.

VR HEADSETS has Visual effects (including light flashes) that may trigger epileptic seizures, fainting or dizziness in people who have history with these conditions. If you have a history of seizures, loss of awareness, consult your doctor before using VR HEADSETS.

When using our VR HEADSETS make sure you are in a comfortable posture. Do not hold the products too tightly. Press the buttons lightly. If you have tingling, numbness, stiffness, nausea, dizziness or any other discomfort, immediately stop using the devices and consult your doctor.

PHYSICAL & PSYCHOLOGICAL EFFECTS OF CONTENT

The computer-generated simulation dimensional images seem real. This experience triggers emotions as if you were physically there. Content viewed using these devices can be intense, immersive and your brain and body may react accordingly. Certain types of content could trigger laughs, excitement, increased heart rate, and spikes in blood pressure, panic attacks, anxiety or other adverse effects.

AVOID OVERUSE

Prolonged, uninterrupted use of computerized simulations should be avoided. It may impact eye coordination and balance.

STOP USING IF YOU EXPERIENCE ANY DISCOMFORT

If you experience any of the following symptoms while using the devices STOP IMMEDIATELY and ask for assistance

- *Excessive sweating
- *Impaired sense of balance
- *Impaired hand and eye coordination
- *Motion sickness
- *Eye pain
- *Eye discomfort
- *Vision abnormalities
- *Disorientation
- *Lightheadedness
- *Drowsiness
- *Fatigue

We encourage you to not to drive or take part in activities that may have potentially serious consequences until fully recovered.
